Ad integrazione delle considerazioni di cui alla sintesi interpretativa si ribadisce che devono essere considerate componenti irrinunciabili le seguenti componenti:

- la tutela dei nuclei storici con particolare riferimento a Castello che necessita di essere svincolato dalla attuale viabilità provinciale di attraversamento
- il mantenimento della fascia di rispetto dei nuclei storici
- la salvaguardia nel paesaggio agrario e delle relative testimonianze antropiche mediante l'individuazione di aree non inedificabili e ambiti in cui attivare attentive operazioni di presidio e valorizzazione ambientale
- la concentrazione del nuovo volume residenziale nelle parti del territorio già sufficientemente urbanizzate
- la dotazione delle infrastrutture puntualmente individuate nella verifica della richiesta infrastrutturale [illegible] parte del documento di verifica degli standard, in relazione al peso insediativo previsto.

Possono invece essere considerate suscettibili di variazione le seguenti componenti:

- la completa saturazione della porosità edilizia
- la completa realizzazione della viabilità secondaria purché la stessa sia funzionale alla quota parte di volumetria residenziale realizzata
- le modalità di reperimento della dotazione di servizi per quanto concerne le piccole variazioni alla dislocazione e la gestione e proprietà degli stessi purché sia garantito il servizio ad un determinato bacino di utenza.
- la futura disponibilità dell'area della attuale [illegible] in relazione alle sue potenziali ripercussioni sul tutto il comparto [illegible] potrà costituire oggetto di verifica della validità della prescrizione fondativa qualora la stessa comportasse una sostanziale variazione della quantità o della tipologia del carico insediativo.
